## RISK DISCLOSURE STATEMENT

THE RISK OF LOSS IN TRADING COMMODITIES CAN BE SUBSTANTIAL. YOU SHOULD THEREFORE CAREFULLY CONSIDER WHETHER SUCH TRADING IS SUITABLE FOR YOU IN LIGHT OF YOUR FINANCIAL CONDITION. IN CONSIDERING WHETHER TO TRADE OR TO AUTHORIZE SOMEONE ELSE TO TRADE FOR YOU, YOU SHOULD BE AWARE OF THE FOLLOWING:

IF YOU PURCHASE A COMMODITY OPTION YOU MAY SUSTAIN A TOTAL LOSS OF THE PREMIUM AND OF ALL TRANSACTION COSTS.

IF YOU PURCHASE OR SELL A COMMODITY FUTURE OR SELL A COMMODITY OPTION YOU MAY SUSTAIN A TOTAL LOSS OF THE INITIAL MARGIN FUNDS AND ANY ADDITIONAL FUNDS THAT YOU DEPOSIT WITH YOUR BROKER TO ESTABLISH OR MAINTAIN YOUR POSITION. IF THE MARKET MOVES AGAINST YOUR POSITION, YOU MAY BE CALLED UPON BY YOUR BROKER TO DEPOSIT A SUBSTANTIAL AMOUNT OF ADDITIONAL MARGIN FUNDS, ON SHORT NOTICE, IN ORDER TO MAINTAIN YOUR POSITION. IF YOU DO NOT PROVIDE THE REQUIRED FUNDS WITHIN THE PRESCRIBED TIME, YOUR POSITION MAY BE LIQUIDATED AT A LOSS, AND YOU WILL BE LIABLE FOR ANY RESULTING DEFICIT IN YOUR ACCOUNT.

UNDER CERTAIN MARKET CONDITIONS, YOU MAY FIND IT DIFFICULT OR IMPOSSIBLE TO LIQUIDATE A POSITION. THIS CAN OCCUR, FOR EXAMPLE, WHEN THE MARKET MAKES A "LIMIT MOVE." THE PLACEMENT OF CONTINGENT ORDERS BY YOU OR BY YOUR TRADING ADVISOR SUCH AS A "STOP-LOSS" OR "STOP-LIMIT" ORDER, WILL NOT NECESSARILY LIMIT YOUR LOSSES TO THE INTENDED AMOUNTS, SINCE MARKET CONDITIONS MAY MAKE IT IMPOSSIBLE TO EXECUTE SUCH ORDERS.

A "SPREAD" POSITION MAY NOT BE LESS RISKY THAN A SIMPLE "LONG" OR "SHORT" POSITION.

THE HIGH DEGREE OF LEVERAGE THAT IS OFTEN OBTAINABLE IN COMMODITY TRADING CAN WORK AGAINST YOU AS WELL AS FOR YOU. THE USE OF LEVERAGE CAN LEAD TO LARGE LOSSES AS WELL AS GAINS.

IN SOME CASES, MANAGED COMMODITY ACCOUNTS ARE SUBJECT TO SUBSTANTIAL CHARGES FOR MANAGEMENT AND ADVISORY FEES. IT MAY BE NECESSARY FOR THOSE ACCOUNTS THAT ARE SUBJECT TO THESE CHARGES TO MAKE SUBSTANTIAL TRADING PROFITS TO AVOID DEPLETION OR EXHAUSTION OF THEIR ASSETS. THE RELEVANT OFFERING DOCUMENTS CONTAIN A COMPLETE DESCRIPTION OF EACH FEE TO BE CHARGED TO YOUR ACCOUNT BY THE COMMODITY TRADING ADVISOR.

YOU SHOULD ALSO BE AWARE THAT THIS COMMODITY TRADING ADVISOR MAY ENGAGE IN TRADING FOREIGN FUTURES OR OPTIONS CONTRACTS. TRANSACTIONS ON MARKETS LOCATED OUTSIDE THE UNITED STATES, INCLUDING MARKETS FORMALLY LINKED TO A UNITED STATES MARKET, MAY BE SUBJECT TO REGULATIONS WHICH OFFER DIFFERENT OR DIMINISHED PROTECTION. FURTHER, UNITED STATES REGULATORY AUTHORITIES MAY BE UNABLE TO COMPEL THE ENFORCEMENT OF THE RULES OF REGULATORY AUTHORITIES OR MARKETS IN NON-UNITED STATES JURISDICTIONS WHERE YOUR TRANSACTIONS MAY BE EFFECTED. BEFORE YOU TRADE YOU SHOULD INQUIRE ABOUT ANY RULES RELEVANT TO YOUR PARTICULAR CONTEMPLATED TRANSACTIONS AND ASK THE FIRM WITH WHICH YOU INTEND TO TRADE FOR DETAILS ABOUT THE TYPES OF REDRESS AVAILABLE IN BOTH YOUR LOCAL AND OTHER RELEVANT JURISDICTIONS. THIS BRIEF STATEMENT CANNOT DISCLOSE ALL THE RISKS AND OTHER SIGNIFICANT ASPECTS OF THE COMMODITY MARKETS. YOU SHOULD THEREFORE CAREFULLY STUDY THIS DISCLOSURE DOCUMENT AND COMMODITY TRADING BEFORE YOU TRADE INCLUDING THE DESCRIPTION OF PRINCIPAL RISK FACTORS IN THE RELEVANT OFFERING DOCUMENTS.

# Vulcan Strategy Focus

Vulcan trades a variety of metals including copper, gold, silver, platinum, and palladium. Vulcan adapts to changing market conditions; the strategy employs intra-commodity spreads to yield additional low risk returns. The majority of Vulcan's trades are relative value future spreads, but it also utilizes some outright, options-on-futures, NYMEX/LME arbitrage, and, in our funds, sub-strategies involving physical delivery of warehouse receipts.

# Vulcan Edge

---

- Vulcan utilizes our global network of information on mining, usage, historical movements, and industrial need, as well as proprietary research, to extract return from intracommodity calendar spreads
- Vulcan also tracks open interest, CFTC statements of reporting traders, and fund prospectuses to arbitrage the roll of outright positions by speculators
- Vulcan analyzes differences in delivery patterns and geographic preferences to arbitrage pricing between metals traded on the London Metals Exchange and New York Mercantile Exchange

# Vulcan Risk Management

---

Protection is a key element in generating returns; robust risk management is at the core of this protection. We believe that associated costs are more than compensated for in times of market stress, and the strategy generates strong positive returns in rising markets.

Risk is actively managed through strict risk budget limits at portfolio and individual metals levels, with drawdown limits set and enforced by Typhon's Independent Risk Committee.

Vulcan's portfolio managers have traded this strategy for between 20 and 30 years each with their own money and all have skin in the game.

# Typhon Risk Management

---

**Independence** The Risk Committee is independent from each of our trading groups. We protect our investors by ensuring that our managers are operating within their set guidelines.

**Empowered** The Risk Committee has the authority to reduce exposure in the event a manager has breached its risk limits. It is important to draw a distinction between risk management and risk monitoring.

**Proprietary Tools** Typhon has developed a suite of proprietary tools that are customized for each strategy.

**Pre-established Risk Limits** The Risk Committee establishes risk guidelines for each manager before it starts trading on our platform.

**Regular Review of all Strategies** All strategies are reviewed on a regular basis, not just when there are issues.

**Value-Additive Feedback** The Risk Committee is constantly monitoring trading positions and proactively collaborates with our managers to help them optimize trade construction around their investment theses.

**Risk Reporting** Risk analytics and daily PNLs are available to investors as part of our commitment to transparency.

# Typhon Risk Management

---

**Per Manager Constraints** Each manager is limited to specific markets, exchanges, and instruments with product and maximum overall exposure limits.

**Per Trade Risk Parameterization** Each manager maintains profit objectives, reduction targets, and stop-losses for every trade.

**Concentration Risk** Strategists generally trade a small number of markets, providing a naturally balanced portfolio. Typhon's risk team may actively hedge the overall portfolio in cases where a concentration arises.

**Liquidity Risk** Percent limits linked to open interest and daily volume

A preemptive approach to limiting drawdowns by:

- Convening the risk committee if a manager hits 25% of their risk budget to evaluate the position
- Cutting a manager's risk by 50% once half of a manager's max monthly loss is reached
- Closing a manager's book for the month if the monthly risk budget is reached and subsequently restarting the manager the next month at half risk
- Typhon's independent risk committee performing real-time risk monitoring
- Typhon's risk committee can hedge positions across the overall portfolio

# Typhon Distinction

**Manager Flow** Typhon is plugged in to the universe of emerging traders and identifies distinctive specialists with defined edges.

**Due Diligence** Typhon has a rigorous due diligence process to cull the universe of emerging managers before bringing them into Typhon.

**Operational Support** Typhon provides its managers with best-in-class legal, compliance, accounting, and administrative support. This tempers one of the largest issues associated with investing in emerging traders.

**Risk Oversight** Typhon has an independent, empowered risk management committee that monitors our strategies on a daily basis.

**Investor Relations** Typhon has well-established relationships with investors allocating to emerging and tactical traders.

**No Additional Fees** Typhon works with its managers, not in addition to its managers. Our investors do not incur any additional fees for allocating to Typhon managers.

**Typhon**

- Ensuring those same ethical standards are upheld by our managers and staff

# Typhon Advantage
